BIG WHITE PLAGUE

Novel Campaign for its Extermination to be Conducted.

ADOPT VIGOROUS METHODS

Alarming Increase in the Death Rate From Consumption Has Stirred Chicago Authorities to Adopt Extra-ordinary Measure for its Prevention and Cure.

CHICAGO, Dec. 16.—The great white plague, which causes more than 3,500 deaths in Chicago every year, is to be attacked in a new and, for this city, novel campaign.

Special departments for tuberculosis will be opened today at the free dispensaries conducted by the rush, Northwestern, Polyclinic and Mahemann Medical Schools, the college of Physicians and Surgeons, and the United Hebrew Charities dispensary.

The medical institutions were interested as a result of the activity of the Chicago Tuberculosis Institute.

The Institute has been in existence for three years and during that period its work has been directed chiefly along educational lines. The alarming increase in the death rate from consumption in this city, which was 215 more last year than it was the previous year, due, according to Health Commissioner Evans, mainly to the lack of ventilation in dwellings has caused the institute to adopt more vigorous methods in combating the disease.

The unfortunate victim of tuberculosis no matter how poor he may be and regardless of the stage of the disease, will receive valuable advice regarding the out of door treatment and diet and exercise, and medicine when it is needed.

Physicians specially qualified to diagnose and treat tuberculosis have volunteered their services. The plan has the enthusiastic support of the medical profession, including the commissioner of health.

HERE'S GOOD ADVICE.

O. S. Woolever, one of the best known merchants of Le Raysville, N. Y., says: "If you are ever troubled with piles, apply Bucklen's Arnica Salve. It cured me of them for good 20 years ago." Guaranteed for sores, wounds, burns or abrasions. 25c at Clas. Rogers drug store.

A question exists in the Illinois Legislature as to whether a majority vote passed the primary bill. There can be no doubt that the people of the state want a sensible primary law by much more than a two-third majority.

ILLINOIS WINS OVER MISSOURI.

WASHINGTON, Dec. 16.—Illinois has won out against Missouri in the contest for the Republican national convention. By a vote of 32 to 17 Chicago captured the prize, Denver getting four votes in the balloting in the Republican national committee. Distance alone was Denver's undoing, but it is generally whispered among the politicians that the Missouri contingent drowned all their chances in a flood of oratory. The Kansas City delegation was over-enthusiastic. Not the least offender was Senator Warner, who devoted, in the excess of his zeal, far more time than was necessary in setting forth Kansas City's advan-

ages. His delivery, too, was unfortunate for at times his voice sank so low as to be almost inaudible. Before he finished the members of the committee were restless, a condition which was aggravated when former mayor Jay H. Neff of Kansas City, chairman of the Kansas City boomers, delivered a long, rambling

speech, the subject matter of which could have been condensed into 250 words. In spite of the fact that the Kansas City delegation had brought with them \$75,000 in certified checks and Chicago offered nothing but a guarantee of expenses, the vote was almost two to one in favor of the latter city.

Representative McKinley of Illinois believes that the widows of Civil War veterans should be more kindly treated by Uncle Sam. He has introduced a bill increasing the widow's pension from \$8 to \$12 per month. This measure also repeals the dependent clause. The reasons given by Mr. McKinley for these in-

creases are that the price of commodities has increased to a remarkable extent and that these women are growing aged and for that reason greater consideration should be shown them. The measure has been referred, but the Illinois congressman will press the matter in an effort to have it enacted.
